* Introduction

This user guide will navigate you step-by-step through the exciting process of our Yielding or rewards programs.

Yielding entails contributing BTXG to the Bullionz trading and monetary ecosystem by setting aside BTXG tokens within each user's account in the Bullionz system.

By contributing BTXG to the Bullionz ecosystem and community, customers will be able to receive a passive monthly reward based on either the collective trading actions (Trading Rewards) or card transaction actions (Transaction Rewards¹) of the entire communal pool.

¹ Please note that Bullionz's products and services are region specific. Our Wallet and Card facilities, along with our Transaction Yielding program, are currently available in the EU only.
